# The Great March 100

PaStaNet

HAKE ..... OCL

GM 100 Tasks : high-quality tasks feasible for hardware and friendly for teleoperation data collection

HOI Primitives & Object Affordance

**LLMs and Expert Task Evaluation**

Tasks Generation Pipeline

- Step 1: Human–Object Interaction Primitive Selection
- Step 2: Semantic Disambiguation of Action Primitives
- Step 3: Action–Object Relevance Modelling
- Step 4: Task Instance Synthesis

DP
π0
π0.5
gr00t

- 1. Expert-designed scoring for comprehensive task evaluation
- 2. Multiple trials for objective and reliable assessment
- 3. Diverse task scenarios for broad coverage

Data Collection   **Training Policies**   **Policy Evaluation on Real Robot**
